

## PRESS RELEASE

March 12<sup>th</sup>, 2010

### **eVol® Secures Prestigious GIT Innovations Award Nomination!**

eVol®, the world's first automated analytical syringe created and manufactured by SGE Analytical Science, has been nominated for GIT VERLAG's prestigious Innovations Award. SGE is proud to receive the nomination for this exciting new product developed in response to laboratory demand for greater precision and accuracy in liquid handling. A panel of renowned scientists selected eVol® from the latest product innovations in the analytical and life science industry. Everyone is an expert with eVol® as it delivers user independent results and improves laboratory workflow. eVol® is one of 5 nominees in the 'Laboratory Equipment & Furniture' category. Vote for eVol® now until March 31<sup>st</sup> at <http://www.pro-4-pro.com/en/Labor-Biotechnik/Poll/index.html> or during Analytica 2010 at the GIT VERLAG booth. For more information on eVol® visit [www.sge.com/products/eVol](http://www.sge.com/products/eVol)

#### *What is eVol®?*

eVol® is the coupling of two precision devices: a digitally controlled electronic drive and an XCHANGE® enabled analytical syringe. The programmable digital drive means liquid handling procedures are user-independent allowing more efficient workflow scheduling and a reduction in the re-analysis of incorrectly processed or false positive samples. eVol® features a touch wheel and full color screen for ease of use. The eVol® menu allows all functions to be accessed logically and quickly while the programming functions are intuitive and include help screens and prompts. eVol® is easily calibrated to comply with stringent laboratory standards.

#### *eVol® at Analytica 2010*

Visit SGE Analytical Science at Hall A1 Booth 231 at Analytica 2010 to test drive an eVol® and enter our competition for your chance to win one eVol® each day!

#### *About SGE Analytical Science*

SGE Analytical Science began manufacturing syringes over 40 years ago and now manufactures a vast array of products for chromatography and mass spectrometry. SGE is an [ISO accredited](#) company and is proud that all major analytical science instrument manufacturers rely on and incorporate SGE manufactured components in their systems. SGE is heavily committed to ongoing research and development that will allow the company to continue to bring innovative technologies and solutions to analytical science.
