SGE International Announces Company Name Change to SGE Analytical Science

SGE International Pty Ltd (Melbourne, Australia), the parent company of the global SGE Group, has announced its plans to rename the company "SGE Analytical Science Pty Ltd".

"The SGE International name dates back to a time when the Australian company wanted to emphasize its focus on international markets in the area of consumables related to Gas Chromatography" said Stephen Tomisich, Director. "Today SGE business crosses a broad range of enabling technologies, not only for GC, but for TOC, MS, LC and Nano LC. The fact that SGE is global or "International" goes without saying, but the common theme is the application of SGE technologies in the field of Analytical Science."
